DETAILED ACTION

1. Prosecution on the merits of this application is reopened on claims 1-10, 16-22, and 24-41 because of outstanding formal issues within the specification, one page 13. Specifically, page 13 has an illustration which does not fall within the limitation of 35 CFR 1.58 (a), which states :

37 CFR 1.58. Chemical and mathematical formulae and tables.

(a) The specification, including the claims, may contain chemical and mathematical formulae, but shall not contain drawings or flow diagrams. The description portion of the specification may contain tables, but the same tables may only be included in both the drawings and description portion of the specification if the application was filed under 35 U.S.C. 371. Claims may contain tables either if necessary to conform to 35 U.S.C. 112 or if otherwise found to be desirable.

Please remove the illustrations from the specification (disclosure). If applicant would like to keep the illustration as part of the overall disclosure please add them as drawings by amending per 37 CFR 1.81 and amend the specification and text references as necessary.

2. Applicant is advised that the Notice of Allowance mailed is vacated. If the issue fee has already been paid, applicant may request a refund or request that the fee be credited to a deposit account. However, applicant may wait until the application is either found allowable or held abandoned. If allowed, upon receipt of a new Notice of Allowance, applicant may request that the previously submitted issue fee be applied. If abandoned, applicant may request refund or credit to a specified Deposit Account.

Allowable Subject Matter

3. Claims 1-10, 16-22, and 24-41 are allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art, alone or in combination, fails to teach a polymeric colored dispersant as instantly claimed having the selected B linking moieties and a X group that is branched or linear C50 to C200 polymeric hydrocarbon chain. Nor does the prior art, alone or in combination, teach a colorant dispersant comprising at least about 45% of a colorant and the above listed colored polymeric dispersant or a printing ink comprising the same.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
